ers to Blow up Yard.

## TWENTY KNOWN DEAD IN NEWCASTLE

Indiana Town a Mass of Ruins  
From Tornado.

Newcastle, Indiana, March 12.—Newcastle famed for its beautiful homes was a city of deaths and ruins today. Dawn found hundreds of searchers combing the debris for the missing. Already twenty-two bodies have been recovered and it is believed that many others will be found. Mithra were on hand to take charge of the work of rescue and relieve 200 special deputies of the work of collecting the town, made necessary by looters. Every house left standing upon its foundation, and every church was in use as a hospital or a shelter for the hundreds of homeless whose misery was added to by the biting cold winds. The work of rescue had gone on all night in the darkness with only lanterns and headlamps being available, as the electric lighting system was abolished and the gas was shut off for fear of fire and explosions.

Mayor J. L. Watkins, with his home a mass of ruins, but happy because he and his family escaped, directed the citizens' committee in their work. He supervised the work of a relief committee and he organized the workers to clean up the wreckage.

It was estimated that \$100,000 would be needed for immediate relief work.

Join the Naval Reserve.

(Special to The Herald)

Philadelphia, March 12.—Destruction of the Philadelphia navy yard was plotted by a band of German conspirators, federal agents declared today, following the arrest of Mr. and Mrs. Adelbert K. Fisher. Sufficient explosives had been smuggled on the interned German raider Prinz Eitel Friedrich and Kron Prinz Wilhelm to destroy the navy yard and menace the southern part of Philadelphia.

The disclosures were made after the arrest of the Fishers on a smuggling charge. In their home were found documents showing the German conspiracy extended throughout the country.

## SILVER TEA BIG SUCCESS

The Board of Advisors of the Home for Aged Women held a silver tea on Saturday afternoon from 3 to 5 at the Home on Deer street. Over a hundred people visited the Home and enjoyed the hospitality, and over twenty-five dollars was realized, which will go toward the fund for a new home.

Tea and sandwiches, cake and nuts were served, tea being poured by Mrs. Horace Frye and Mrs. George Shapleigh.

Mrs. Charles Hazlett, Mrs. P. W. Hartford, Mrs. Ralph Leighton and Miss Jarvis assisted in the serving. Mrs. Ann Perry, Mrs. Nellie Walker and Mrs. Manning Akerman received and it was largely through the agreeable interest of Mrs. Reed, in charge of the home, and Mrs. Russell, the nurse, that made the afternoon a success.

## CONGRESSMAN SULLOWAY DEAD IN WASHINGTON

Representative of this District Since 1893 Passed Away  
Early Sunday Morning, Death Resulting from Pneumonia  
--Was One of New Hampshire's Most Famous Attorneys

## CLARK WILL BE NEXT SPEAKER

Death of Sulloway Makes It  
Look Possible; Republicans  
Not United.

(Special to The Herald)

Washington, March 12.—There is little doubt here that unless the Republicans can iron out their differences, that Speaker Champ Clark will be re-elected speaker of the house. At the present time the death of Congressman Sulloway leaves the house with 214 each and the Democrats are all back of Clark, while the Republicans are very much divided on James H. Mann, the minority leader of the last house, who is their candidate for speaker. A number of the Republicans have openly stated that they will not vote for Mann and some even say that they will vote for Clark rather than for Mann.

## CHINA TO BREAK WITH GERMANY

Government Policy Approved  
by House of Representatives.

London, March 12.—The Chinese House of Representatives has approved the government diplomatic course and the proposal of breaking relations with Germany, according to a Reuter dispatch from Peking.

Cyrus A. Sulloway, of Manchester, Representative to Congress from the First New Hampshire Congressional district, passed away at his home in Washington shortly after 3 o'clock Sunday morning from pneumonia, aged 77 years. Congressman Sulloway's illness was contracted on inauguration day when he was taken ill with a severe cold which quickly developed into grip. On Friday pneumonia set in and before the end of the day his physicians announced that his chances of recovery were slight. A message from his secretary, William H. Topping of Manchester, received in Manchester on Saturday, stated that the physicians announced late in the evening that it was doubtful if he survived the night.

Mr. Sulloway was born in Grafton, N. H., June 8, 1839, remaining on his father's farm, receiving his early education in the public schools of the town. He attended Colby Academy, New London and following his graduation he took up the study of law in the office of Pike and Bernard at Franklin. He was admitted to the New Hampshire bar in 1863 and the same year removed to Manchester where he has since lived.

He entered into a law partnership with Samuel D. Lord, the partnership lasting for ten years. Upon its dissolution Mr. Sulloway became associated with the late Hon. Elihu M. A. Hitt of Manchester and in 1881 Mr. O'Connor joined the firm, the firm, Sulloway, Toppitt and O'Connor becoming one of the most famous and central and southern New Hampshire.

Mr. Sulloway was always interested in matters of state interest and other public interests in his city and district. In 1872 he was elected to represent his district in the New Hampshire Legislature and was elected several times since, serving in the House from 1887 to 1893, inclusive. In politics he was affiliated with the Republican party.

In 1893 he was elected to the Fifty-fourth Congress as the representative of the First district, and was re-elected to each successive Congress to, and including the Sixty-third, in 1913, when he was defeated by Eugene B. Reed. He was again elected to Congress serving in the Sixty-fourth Congress which has just adjourned and he was to have been a member of the Sixty-fifth Congress which will meet in extra session at the call of the President on April 16.

Congressman Sulloway was a notable figure in Washington both from his long service in the national House and because of his giant stature. He stood 6 feet 6 inches tall and was finely proportioned. With his flowing white beard he was a commanding figure and his handsome height early earned for him the sobriquet, "The Tall One of the Merimac." He is survived only by one daughter, Miss Belle Sulloway of Manchester and Washington.

Washington, March 12.—The body of Representative Cyrus A. Sulloway was taken to Manchester today for burial.

## PRES. WILSON'S CONDITION SERIOUS

Sent Back to Bed Today and  
Only Two Callers  
Allowed.

(Special to The Herald)

Washington, March 12.—President Wilson's condition was still so serious today that he was kept confined to his bed by order of Dr. Grayson. The President was allowed to sit up a short time yesterday and the effect proved far from good, it is said.

Secretary Lansing and Senator Marshall of Virginia, majority leader were admitted to the sick room and held a short conference with the President, after all visitors were barred.

Dr. Grayson stated that the President's condition was not serious but no chances would be taken with the severe cold.

## DECLARES WAR BY ARMING MERCHANTMEN

Berlin Paper Declares That  
We Are "War Mad."

(Continued on Page Six.)

Berlin, March 12.—"The American people are war mad," declared the Tagliche Rundschau, in an editorial declaring that President Wilson's decision to arm American ships has brought war very near. "The arming of trading vessels is already war," the newspaper says "even if the casus belli does not appear for days or even weeks. It must be made quite clear even now that America is the aggressive party as soon as she sends her guns against our U-boats."

Studying Patience.

"Well, Teddy," said the uncle, jovially, upon the return of the little boy, "what do you do in school all day?" "Teddy pondered, "Well," he said, "mostly I wait until it's time to go home."—Chicago Journal.

## MERCHANT SHIPS TO BE MANNED BY NAVAL GUNNERS

Official Notice Given Foreign Govern-  
ments Today---Presence of Naval Men  
Will Not Make Them Auxiliaries.

## FOOD RIOTS IN RUSSIA

A Stockholm Dispatch Says  
Conditions Are Bad in  
Petrograd and Moscow.

Stockholm, March 12.—Serious food riots coupled with peace demonstra-  
tions have occurred in Petrograd and Moscow. Cossacks charged a wild mob that formed in a food riot which wrecked baker shops. For more than an hour the mob was in control of a large section of the city. The rioters blocked the railway service, smashed shops and pumiled the streets shouting alternately, "Give us food," "Give us peace."

The Petrograd newspapers have been suppressed. The military commander has issued a proclamation warning the people that the troops will shoot to kill. No news has been received from Moscow for two days.

Washington, March 12.—The state department today sent to all the foreign embassies and legations, an official notification of this government's intention to place arms and armed guards on all American ships leaving these shores for the submarine zone.

It was also learned that the U. S. holds that the presence of naval gunners on American merchantmen will not change the status of these ships as this country has never accepted the assertion of Germany that naval men on merchant ships render them naval auxiliaries. Guns and gunners will be placed on all ships and the naval men will be responsible to the government and not to the captain of the ship to which they are assigned.

## NO DECISION ON 8-HOUR LAW

Washington, March 12.—The supreme court concluded handing down opinions today without a decision on the constitutionality of the Adamson eight-hour law.

BASKETS—In all sizes, including hampers, market and lunch baskets, waste and clothes baskets.

GEORGE B. FRENCH CO.

## NEVER HEARD OF SUCH EGG RECORD

Local Man Says Record Was  
Kept With Two-Pointed  
Pencil.

Charles L. Small of Bliddeford, who claims his flock of 20 Wyandotte hens laid 1170 eggs in 63 days, has beaten the two best pens in the Storrs egg-laying contest, by practically doubling their record being 1166 for 112 days. A pen of Wyandottes laying 623, and a pen of White Leghorns, laying 627, making a total of 1156 for 112 days. There are ten birds in a pen, two pens making 20 birds, the same number as Mr. Small has. I have never heard of any such records in any egg-laying contest at any of the government experimental stations, of that number of birds, laying the same number of eggs every day, for sixty-five days. There have been cases where odd birds would lay every day but not as a flock. In justice to Mr. Davis of Elliot should say he kept his record with the right kind of a pencil. The Bliddeford record must have been kept with a pencil having two points.

Respectfully yours,

J. S. TILTON, JR.,  
Vice-President, Portsmouth Poultry  
Association.

## FURNITURE REUPHOLSTERED

## D. H. McIntosh

Complete House Furnisher  
COR. FLEET & CONGRESS STS.

Upholstery, Repair Work and Refinishing of  
Antique and High Grade Furniture—Also  
Interior Decorating.

We have secured the services of the following well known artists: Upholstery work, Mr. Joseph J. Murphy, who has had 25 years' experience with some of the best concerns in New England, including Sheppard-Norwell Co., Kilborn Whitman Co. Cabinet work, Eli Lishansky, well known in this city for good work in this line; there is none better; he learned his trade in the old country, and for a number of years was employed at Davenport, Boston. Refinishing and decorating, Mr. V. A. Woods, well known in this city, and in a class by himself for refinishing antiques, and bringing out all the old and original lines; none better for interior decorating also. Estimates given free on any kind of work. Remember the place—

## TORNADO KILLS A SCORE OF PEOPLE

Newcastle, Ind., Swept by  
Storm and 500 Houses  
Destroyed.

Indianapolis, Ind., March 11.—A tornado swept over central eastern Indiana late today, killing more than a score of persons at Newcastle and two children in Wayne county. The total number of injured will run over 200, some of whom are probably fatally hurt. The damage in total well over a million dollars at Newcastle and several thousand dollars in Wayne county. The identified dead are:

Gray Davis, Mrs. John R. Davis, Mrs. Archie Fletcher, Edward Donlay, Jas. Nells, Elizabeth Day, Mrs. Alice Williams and daughter, Opal, a man named Haxey, and a girl named Heyler.

According to reports received from Newcastle by Henry R. Smith, adjutant-general of the Indiana national guard tonight, 26 persons were known to be dead and had been taken from the wreckage left by the storm there, and 125 more or less seriously injured had been removed to hospitals or private homes. Rescue parties were still digging in the ruins.

A message signed by Mayor Watkins of Newcastle stated that 500 houses were down and the city needed troops. The Indiana guard at Muncie and Crawfordsville were ordered to proceed to Newcastle as soon as possible. Newcastle has a guard company but it is at Fort Benjamin Harrison and could not be called upon for assistance as it is in federal service.

Physicians, nurses, undertakers and ambulances were ordered to Newcastle from Indianapolis, Muncie and other towns surrounding Newcastle. Two special interurban cars carrying thirty physicians and fifty nurses were sent from here early this evening.

## KITTERY POINT

Fred Billings of Boston is passing a few days with his parents, Mr. and Mrs. Albert Billings.

Chandler Blake of Brookline, Mass., passed the week-end at his cottage in the pines at Crockett's Neck road.

George Kimball has returned to his home after visiting friends in Boston for a few days.

Mrs. Herbert Currier is confined to her home on Tenney's Hill quite ill with erysipelas.

Mr. and Mrs. J. Byron Phillips of Kittery visited the latter's parents in town on Sunday.

Gladstone Stevens of Portsmouth has returned home after visiting Mrs. L. E. Seegar for a few days.

Cushman Phillips of Brooklyn, N. Y., is visiting his parents, Mr. and Mrs. J. A. Phillips.

Little Miss Madeline Tobey has returned to the home of her parents, Mr. and Mrs. Ernest Tobey after passing several months with her aunt in Boston.

Miss Helen Waterworth has returned to her home after visiting relatives in Boston.

The Ladies' Aid of the Baptist church will meet on Wednesday afternoon with Mrs. Josephine Frieswe.

Willon Day is enjoying a few days vacation from his work at the navy yard.

Rev. Winifred Coffin has returned to her home after attending conference at Ogunquit.

The Ladies' Sewing Circle of the Congregational church will meet with Mrs. Charles Woods at her home at the Intervale on Tuesday afternoon.

Miss Lillian Walker, a senior at the Emerson College of Oratory, Boston, is visiting her parents, Mr. and Mrs. J. A. Walker, at their home, Kittery Point bridge.

Mrs. Frank Nye and daughter Yvonne.

gola of Boston, are visiting the former's sister, Mrs. Ernest Tobey.

The Ladies' Aid of the First Christian church will hold a social at the home of Mrs. Edna Emery, on Wednesday evening.

Parus Brothers' ice cream at Tobey's.

L. E. Seegar has returned to his home from a few days' visit in Boston.

J. A. Phillips has taken employment at the navy yard, beginning his duties this morning.

Miss Carrie Follansbee of Portsmouth was the guest of Mrs. N. E. Emery on Sunday.

## SMALL TOWN PROBLEMS

Town Meetings Tomorrow  
Will Have a Few to  
Solve.

The annual town meetings on Tuesday will be of much interest in many towns in this section, yet locally there is but little to interest the voters except the matter of appropriations. Probably the most of interest is the one which is asked for the Robinson seminary of Exeter, for incidental running expenses, and upkeep of the institution. It is stated that repairs are needed in many of the rooms, and also on the outside of the building. The candidates for office are few, and it is likely that all of the present officers will be re-elected, as none have appeared in the field against them. The matter, however, will be settled at the Republican caucus tomorrow evening.

At Kingston the so-called parsonage fund is one of importance. The voters are asked to vote to refund to the trustees of the trust fund, that part of the fund amounting to about \$1,000 which was borrowed from the original Ward Clark fund by the town a number of years ago, but on which it has always paid interest. This interest is a part of the parsonage money, which has been divided among the several churches. In another article they are asked to vote to discontinue paying interest on the balance of the fund, amounting to \$2,400, which was founded by selling land originally belonging to the town. This would mean ceasing to pay any interest or parsonage money, from this fund to the churches, as has been the custom for all these years since the fund was first established.

The parsonage fund there is one of the oldest in the state, having been established about 200 years ago.

At North Hampton the matter of a high school building will come before the voters, as a committee of three was appointed at the last meeting to report this year, whether or not the town would accept the bequest of \$20,000 by John W. F. Hobbs, the income to be used to support a high school. If the town did not take favorable action in three years, \$10,000 should go to the Hampton academy.

North Hampton will also take action for fire protection for there is an article regarding to a contract with the Hampton Water Company for a certain number of hydrants.

At Newton, the voters will be called upon to consider building a free proof vault for the town hall, and to exempt the Newton Box company from taxation for a certain number of years. Other towns will choose their officers some with opposition, and others without. At Newfields there promises to be an interesting three-cornered contest for town treasurer.

## KITTERY

During the absence of the regular Kittery correspondent, anyone having news for this column is asked to phone 587-Y.

The Bible study class will be held this evening in the parlor of the Second Christian church at 8 o'clock.

Mr. and Mrs. Fred Abrams of Newson avenue and Mr. and Mrs. Charles Mayhail of Portsmouth returned on Saturday from a few days' stay in Boston.

The regular meeting of Eastern Star lodge will be held next Wednesday evening in Westworth hall.

Charles Cobb has returned from a few days' stay in Boston.

A Teachers' meeting will be held on Thursday evening in the vestry of the Second Christian church at 7:30.

Charles Meyers of Government street is enjoying a week's vacation from his duties at the navy yard.

There is to be a special meeting of York Rebekah lodge on Thursday evening and a large class of candidates is to be taken in. District Deputy President Carl P. Lord is to be president.

Mrs. Louise Roberts of Portsmouth was the guest of Mrs. P. A. Noel on Sunday.

The Ladies' Circle of the Second Christian church is to meet at the home of Mrs. H. C. Mobley of Olds avenue on Thursday afternoon.

The entertainment which was to be given March 16th by the Sunshine club has been changed to March 30.

Mr. and Mrs. Howard Keene of Friend street have returned from a few days' visit in Boston.

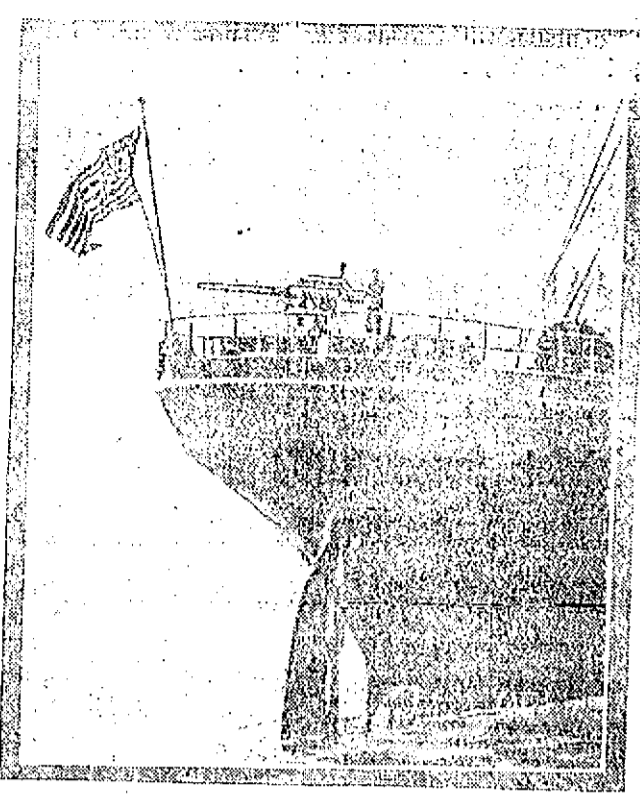

Mr. William Brown of Lock's Cove, peninsular about the same.

The Ladies' Union of the First M. E. church of North Kittery will meet on Tuesday afternoon at the home of Geo. L. Ploren.

Mrs. Samuel Winder of Woodlawn avenue has returned from a month's visit in New York.

There will be a trustees' meeting of

How American Merchant Ships Will Be Armed.

This photograph shows how American merchant ships will look when armed against German submarines. There is a three-inch gun high at the stern of this liner. It may be swung around to shoot at a submarine on either side or in the rear. Naval officers may advise that such a gun be also placed at the bow of the vessel.

The First M. E. church on Wednesday evening.

The Fanny Work club will be omitted this week.

## BAGDAD TAKEN BY BRITISH

Turks Lose Stronghold in Persia and Are in Full Retreat.

London, March 11.—Frederick Stanley Maude, in command of the entire forces in Mesopotamia, telegraphed today the welcome news for the British of the occupation early this morning of the city of Bagdad, the chief Turkish city in Mesopotamia. No details of the capture have yet been received. Gen. Maude's story of the operations carrying events only up to Saturday morning, when the British, after effecting a surprise crossing of the Tigris and bridging the Tigris, had driven the Turks back to within three miles of Bagdad.

It is evident, however, that the Turks have been unable to offer any serious resistance since the fall of Kut-el-Amara. They were said to be hastily summoning reinforcements from other theatres of the war where Turks were engaged, but the distances to be covered were so great that additional forces were unable to arrive in time to save the ancient city.

The fall of Bagdad, besides ending German hopes of near Eastern domination, based on a Berlin-Bagdad railway, will reverberate throughout the Mohammedan empires and it is believed, will more than rehabilitate British prestige in the Far East, damaged by the earlier loss of Kut-el-Amara.

Perhaps no more welcome news could come at a time when the British public for the first time, owing to the submarine war, is beginning to feel the effects of the war in a greatly reduced food supply, besides being thrown into a fit of depression by the revelations of the Dardanelles report.

Apparently the occupation was effected without resistance and with only slight losses. Even if the Turks succeeded in extricating all their forces, the loss of Bagdad is a grave blow to them. Bagdad has been the base for all Turkish operations in Persia. Up to within a few days the Turks occupied about 20,000 square miles of Persian territory, but with the Russians pressing them closely from Kermanshah, as well as from the direction of Erzerum, indications point to a speedy junction of the British and Russian forces, which would soon compel the

retreat.

During the day the following official report was received concerning the operations against Bagdad, carrying them up to Saturday morning, when the Turks had been forced back to within three miles west and southwest of the city.

"Our forces engaged with the Turks on the Diarra line the night of the eighth succeeded, despite the bright moonlight in effecting a surprise crossing of the Diarra and establishing a strong post on the right bank thereof. Meanwhile, on the morning of the eighth, the Tigris having been bridged at some distance down stream, a British detachment marched up the right bank and found the enemy holding a position about six miles southwest of Bagdad."

"The enemy was driven from this position to another position two miles in the rear. During the night of the ninth a passage of the Diarra was forced and our troops advanced some four miles toward Bagdad."

"During the night our forces on the right bank (Tigris) drove the enemy from his second position, bivouacking on the ground gained. This advantage, despite a blinding dust storm and a violent rain, was pressed on the morning of the tenth, the Turks being forced to within three miles west and southwest of Bagdad."

"The enemy was driven from this position to another position two miles in the rear. During the night of the ninth a passage of the Diarra was forced and our troops advanced some four miles toward Bagdad."

## STATE TROOPS BACK FROM TEXAS BORDER

Last of Militia Arrive at Manchester After Long Tour of Duty.

Manchester, March 11.—The Field Hospital and Battery A, First New Hampshire Field Artillery, arrived home yesterday after a journey across the continent, the hospital corps from Denning, New Mexico, and the battery from San Antonio, Texas. The cavalry and signal corps, both of which left Brownsville this morning, complete the New Hampshire representation on the border.

There was a sharp contrast in the reception given to the two organizations.

The hospital corps arrived at 1:30 o'clock in the morning, when pretty nearly all of Manchester was asleep, the members of this company not expected and were shunted to a side-track used by the Manchester-Lawrence trains. They were awakened before 8 o'clock, roused at that hour and marched to the armory at 9 o'clock to the accompaniment of no cheers and no music. Few people saw them pass through the streets.

The battery arrived at 3:35 o'clock in the afternoon. Their arrival was preceded by a signal on the fire alarm system, two bells repeated four times, that sent hundreds scurrying in the direction of the Union station.

When the train came around the curve, cheering began among the 1,000 people crowded on the platforms, swelling louder and louder as the train drew nearer, while excited young women jumped up and down and forgetting grammar, shouted, "It's them, it's them."

The train came to a stop, the boys piled off and were surrounded by numerous friends. There were hearty handshakes, words of congratulation and much kissing by women relatives, not a few of whom were crying with happiness. Shouts of hundreds of voices were finally interrupted by a shrill whistle, the troops formed in column and when the crowd had been parted to left and right, another shrill whistle above the din sent the troops on their way to the armory.

Arrangements are being made for a parade next Tuesday morning, the details of which will be announced later by Mayor Spaulding.

The surprise of all surprises was the band, which scarcely anyone knew had been formed on the border. It is a mounted band, the bass drums in harness, only it was not mounted yesterday for the march up Granite street to Elm street thence to Pleasant street and the armory, with crowds following.

The men marched straight into the armory and were dismissed with a few words by Captain Towle. Then officers and men who were not on guard duty or otherwise active about the armory, busied themselves with unloading the cars of which there were six flats, two box, a kitchen and four tourist sleepers. Thirty-two horses were brought along although the full complement of the battery is about 150.

# COAST PATROL FLEET STARTS ON CAMPAIGN

New Scout Boat Expected Here This Week to Secure Enlistments in the Naval Reserve and Volunteer Navy

There is probably no move which has met with better response than the appeal of the Navy Department for the formation of a volunteer navy, and a Naval Reserve, and practically every yachtsman in the country has signified his intention of becoming a member. The movement is especially strong in New York and New England, and Captain Rush, U. S. N., Commandant of the first naval district, has sent notices to every Yacht Club in this district, with special instructions as to how this department of the service for defense in case of necessity, may be made. Men in the first district who desire to enroll in the National Coast Defense Reserve or the Volunteer Naval Reserve may do so at the Boston Navy Yard, the Portsmouth Navy Yard or the recruiting stations at Portland, Me., or Montpelier, Vt. Any citizen recommended by the owner of a boat suitable for the service applying for enrollment will be examined by either of the aforementioned places, and if found qualified will be enrolled. The appeal also urgently requests the officers, engineers and deckhands of yachts and power boats to enroll in the reserve. The appeal of Captain Rush, for convenience, has been sent to the secretaries of the yacht clubs in the district, and is as follows:

Office of the Commandant.  
Feb. 27, 1917.  
From: Commandant, First Naval District.

To: Secretary.  
Subject: Enrollment of personnel and boats in the Naval Coast Defense Reserve.

1. There is forwarded herewith enclosed for your information pamphlets relating to the Naval Coast Defense Reserve, and to the Volunteer Naval Reserve. This information is being forwarded to all yacht clubs in the First Naval District, which comprises the sea coast and inland waters from Eastport, Maine, to Chatham, Mass.

2. Any boats 10' or longer that might be adaptable, should be tendered by filling in the enclosed blank and forwarding same to the Commandant of the First Naval District, Navy Yard, Boston, Mass.

3. If the boat is apparently available, it will be inspected, and if found to be suitable the owner will be requested to enter into contract with the government for its transfer in event of emergency.

4. Special attention is called to paragraph "Personnel" and owners of boats are urged to enroll in the Naval Reserve, and further to endeavor to fit the equipment of their boat in accordance with the rating mentioned. It is desirable that each man selected enroll in the Naval Reserve.

5. Men desiring to enroll in the Naval Coast Defense Reserve or the Volunteer Naval Reserve in the First Naval District may do so at the Navy Yard, Boston, Mass., the Navy Yard, Portsmouth, N. H., or the Recruiting

Stations at Portland, Maine and Montpelier, Vt. Any citizen recommended by the owner of a boat of apparently suitable type applying for enrollment will be examined at the above mentioned places, and if found qualified enrolled. It is urgently requested that the captains, engineers and deck hands of yachts and power boats enroll in the reserve.

6. Men enrolling will have attached to their records the name of the owner recommending them and the name of the owner's boat for it is considered desirable to detail the reservist to the boat whose owner influenced him to join.

7. The Naval Coast Defense Reserve is a Naval District organization for war purposes. The Commandant of the Naval District is the reservists commanding officer and all requests for duty, etc., are sent to him. Enrollment in the Reserve is for four years.

8. For practice maneuvers during peace, the Commandant will be dependent on the patriotism of boat owners for obtaining sufficient boats for training the personnel of the Naval Coast Defense Reserve and in this connection boat owners are requested to determine whether or not their boats could probably mobilize at Boston next summer for two weeks exercises in connection with submarines, destroyers, etc.

The exact date of these maneuvers is as yet not determined but early information will be forwarded in this connection.

9. Please bring this matter to the attention of your members, and will you keep the Commandant of the First Naval District informed of the action taken and of progress made.

W. R. RUSSELL,  
Captain, Commandant.

Assistant Secretary in Boston

In an effort to secure the enrollment of 3000 in the Naval Reserve for coast defense from Eastport, Me., to Provincetown, Mass., Assistant Secretary of the Navy Franklin D. Roosevelt, on Saturday attended a conference at the Charlestown navy yard with navy officers and the Massachusetts Committee on Public Safety to devise plans for an enlistment campaign. It was later announced that a mobilization of the New England Coast Patrol of several hundred privately owned motor boats would be called, that the scout cruiser Chester would be sent on an "enrollment cruise" up and down the coast of the first naval district and that "land enrollment parties" would also be sent throughout New England in search of recruits. Patrol boat bases will be established at Marblehead, Mass., Gloucester, Mass., this port, and in Maine. Immediately after this decision the first move in the patrol boat organization followed when the motor boat Lynx, a forty-footer, owned by Nathaniel F. Ayer of Boston, and commanded by Captain Nicholas Grannis of Cohasset, Mass., sailed for Gloucester to aid in the campaign.

## Hundred Enrollments

Before the arrival of the Lynx at Gloucester word had been received there of the purpose of the little craft and a meeting was called. At 2 o'clock 400 fine specimens of Gloucester fishermen were awaiting the arrival of the recruiting staff. One hundred were enrolled and another call will be made on Wednesday.

## Will Call Here

The cruise of the Lynx will take in the entire first naval district from Chatham, Mass., to the Canadian border, calling in every port. She will make Portsmouth, probably, some day late this week and among her other ports of call will be Portland, Boothbay Harbor and Rockland, on the Maine coast. The work of the Lynx will be assisted by The Boy Scout which is now at West Lynn being fitted for service, and she will likely start her cruise today or tomorrow. Although the enrollment has been good up to date, it is felt by those in charge of the work that much more enthusiasm can be worked up by the appearance of the two scout boats on the scene and the men familiar with the workings of the naval reserve act who can tell first hand just what the members who have enrolled will have to do when the time comes.

## Navy League is Active

Boston, Mass., March 10.—The active campaign of the Navy League of the United States for recruits for the United States Navy and the Naval Reserve, and for the preparation of equipment for the Navy, is to be extended immediately into Maine, New Hampshire, Vermont, Rhode Island and Connecticut.

In Massachusetts the work of the League is well established, with nearly 1200 members, active Auxiliary branches and the cooperation of many of the patriotic and preparedness societies in the work of making supplies for the men of the Navy and the Reserve. In other New England states, however, the membership has never been organized, being scattered and at present affiliated only with the national organization.

When the present international crisis is developed, certain definite work was assigned to the Navy League by the Navy Department at Washington, and in order to handle this programme effectively, an active campaign of organization has been undertaken.

The Massachusetts Department of the Navy League of the United States, Inc., has begun an active campaign to carry out the following specific programme, delegated to it by the United States Navy Department:

1. To aid in recruiting for the United States Navy.

2. To assist in securing enrollments in the Naval Reserve, recently provided for by Congress.

3. To furnish needed articles of clothing, equipment and comfort, such as woolen helmets, mufflers and socks, and hospital supplies required by the exigencies of the naval service, and not now furnished in sufficient quantities by the Government.

To conduct this campaign effectively and fulfill its requirements, an increased membership in the Massachusetts Department, to which both men and women are eligible, and funds for the purchase of supplies for the work, are essential.

The Massachusetts Department has already been offered, and has accepted the cooperation of the Special Aid Society for American Preparedness and of other women's organizations, the members of which will make the needed articles of clothing and equipment and prepare hospital supplies, all of which will be forwarded directly to the Charlestown Navy Yard, by arrangement with the Navy officers, and will be used for the U. S. warships stationed at the Boston navy yard and for coast patrol boats. The woolen helmets, mufflers and socks will be made according to standards approved by the Navy Department and the American Red Cross. The Navy League will try to supply the yarn and other materials to be used by the cooperating organizations.

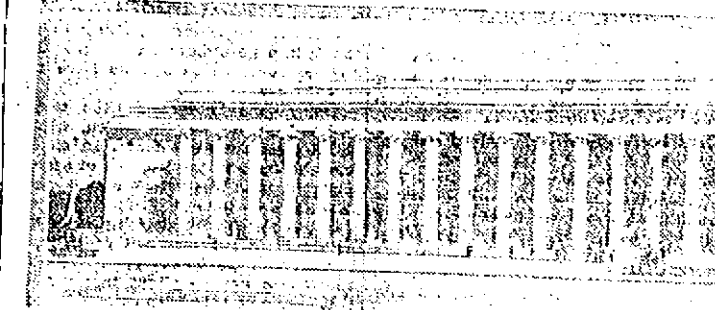

The Navy League is an absolutely independent, non-partisan organization whose national officers include former cabinet members, former ambassadors and other men of national prominence. It has a total membership in all classes of about 350,000 in the United States. It is trying to arouse the country to a realizing sense of its helplessness in the event of war, with which we are now seriously threatened, and to do its share in preparation for the possible struggle. It cannot emphasize too strongly the great need of immediate action.

The membership in Massachusetts has been increased recently from 700 to about 1200. There should be not less than 10,000 in this state enrolled in the League. Every patriotic man and woman should enter the organization.

Mrs. Gardner Hall is Chairman of the Women's Auxiliary of the Massachusetts Department, through which the cooperation of other women's organizations was secured.

Subscriptions to the fund for conducting the work are already being received. The Advisory Committee asks every person interested in the proper preparedness of the Navy of the nation to meet any crisis to send their contributions promptly to the First National Bank, Boston, for credit of the Massachusetts Department of the Navy League of the United States, Inc., or to the State Chairman, Harry K. White, 53 State Street, Boston, Mass.

## Raising Money for Washington Memorial Building at Capital.

MRS. HENRY F. PIMOCK

This picture shows the George Washington Memorial Building for it will be 200 feet wide, 275 feet deep and 100 feet high. Mrs. Pimock is raising funds. She also has raised a general appeal to the ready has more than \$200,000. The money for donations for the structure building is to be erected on the site and particularly asks that small sums, of the old railroad station in which even as low as 10 cents, be sent.

## LIVE DEMONSTRATION BABIES ARE APPROVED

Milwaukee, March 11.—The result report from Appleton to the effect that a group of school girls there have adopted a real live baby on which to experiment in the scientific care of babies, gives one a shock at first thought writes Dr. H. E. Dearbold, director of the Health Bureau of the University of Wisconsin. "The more one thinks of it, however, the more appealing is the unique idea."

"Every student of the problem of infant mortality—the great avoidable loss of baby life—sooner or later sees that ignorance of proper care of babies is the great factor in the problem. It is readily realized that every girl ought to be trained for what in a large proportion of women is the biggest and important work she will ever be called upon to perform. For this reason little mothers classes have been formed and the girls have been given practice in the practice and dressing of dummy babies."

"In addition, girls of the poorer class homes get plenty of opportunity to put their teaching into practice on the family baby, which seems to be commoner in the homes of the poor than in the homes of the rich. In the instance of the average high school girl however, it is doubtful if the dummy baby is actual enough to fix the teaching in her mind as firmly as it should be, and in her instance too, there is seldom a home baby."

The thought of experimenting with a live baby is indeed a bit startling. But when one considers how many babies die for the want of the most ordinary care, it is easy to imagine how the demonstration babies would get such good care as would put the ordinary mothers' attentions to shame.

It is a well recognized fact among physicians that the hospitals which are used for the teaching of medical students frequently give better care to the pauper patients than a millionaire is able to buy. One could easily believe that the same might obtain in the case of demonstration babies.

There are few communities which do not contain communities who would be grateful for a little more attention, and they would not be squeamish as to how they got it.

## CLAIM OPERATION THE DIRECT CAUSE OF WELCH'S DEATH

SHOOTING BY WHITE IN OSSIPEE  
ON MARCH 1 IS NOT NECESSARILY FIRST DEGREE  
MURDER.

Montclair, N. J., March 10.—After considering the testimony given in the coroner's inquest held here today and the report received from Dr. George H. Maynard of Boston, who made a special examination of the heart and other organs and assisted in performing the autopsy last Monday on the body of William F. Welch, shot by Oscar White on Ossipee Mountain on March 1, Medical Referee Horne finds the death of Welch on March 2 was due to the operation performed in the hospital and a weak heart.

The report went to County Solicitor Walter D. H. Hill, Atty. Gen. James W. Tuttle of Manchester, and the lawyers for White.

White is still held in \$1000 bonds for his appearance at a continued hearing March 24.

At the inquest today witnesses did not agree in regard to what happened at the White house on the day of the shooting. The testimony showed that Welch and Lewis Williams visited the White house in the afternoon and White chased Welch around the rooms. Welch, it was testified, took a stove poker away from White, who took the gun and shot Welch.

## SPECIAL ELECTION IS REQUIRED TO NAME SUCCESSOR

THIS CONGRESSIONAL DISTRICT  
MUST NAME REPRESENTATIVE  
TO SUCCEED THE LATE MR.  
SULLOWAY.

The death of Congressman Sulloway in Washington early Sunday morning has again changed the balance of power in the sixty-fifth Congress, the death last week of Congressman Conroy of New York, a Democrat, having made the Democratic and Republican membership of the body—each having 314 representatives. The Republicans had claimed that Representative Martin of Louisiana, an Independent, would vote with them in organizing the House, thus giving them control in the death of Congressman Sulloway the Republican control is lost, the Democrats having one more representative.

According to the laws of New Hampshire a special election in the first district will be necessary to choose a successor to Mr. Sulloway. As it is very doubtful if arrangements can be made for the holding of such an election prior to the time of the calling of the special session the balance of power in the House for purposes of organization will remain in doubt until the House is called to order.

## FISH RECIPES OF FAMOUS CHEFS

Salmon en Casserole.  
By Carlo Calderone, The Gratto, Boston, Mass.

Take about two or three slices of salmon, arrange in a casserole, season with salt and pepper, add some melted butter and put in oven for about fifteen minutes with cover. Remove from oven, add four chopped anchovies, and a little parsley, also a small cup of tomatoes and a small glass of white wine. Replace in the oven for fifteen minutes more and then serve with green peas and potatoes.

The Dartmouth class of 1900 will hold their summer outing at Hampton Beach June 8, 9 and 10. It was announced at their dinner in Boston on Saturday night.

## SPECIAL SESSION OF THE SENATE MAY END SOON

DEMOCRAT LEADERS FAVOR THIS  
MOVE AND END MAY COME  
THIS WEEK.

Washington, March 10.—Sentiment developed at today's meeting of the Democratic Senate steering committee for an adjournment of the special Senate session next week, so that Senators may have some time at home before the special session of Congress opens April 16.

It is probable no effort will be made to press the \$15,000,000 Colombian treaty for ratification.

Democratic leaders have been told there will be no further serious opposition to the confirmation of Dr. Cary T. Grayson, President Wilson's friend and Naval aid, as medical director and Rear Admiral in the Navy.

The committee took no action, but informal discussion disclosed that Senators believed the special session in April should continue only long enough to put through legislation demanded by exigencies of the international situation and those appropriation bills which failed in the last Congress.

An appropriation will be made, if President Wilson asks for arming ships, but unless he so desires, the armed neutrality bill, which did not come to a vote at the last session, probably will not be pressed. Instead a joint resolution may be proposed to declare it to be the sense of Congress that the President acted within his power in arming ships.

Report has it that a number of Senators have been bitten by tick canvassers from Boston, who have collected 10 and 25 cents a week for furniture and jewelry clubs. Several have made complaints, but there seems to be no action.

## PREFERS WORK SHOP TO SYMPOSIUM HINTS

Chicago, March 11.—Margaret Burnstein-Morrison has rebuffed. Hereafter she will be strictly "on her own."

Margaret and her sister Alice were adopted last year by Edward W. Morrison, aged and eccentric millionaire, with the consent of their father who operates a junk shop.

As heiresses they found that time hung heavily on their hands. So when Morrison was hailed into court on various matters connected with his wealth and when an attempt was made to adjudge him insane, and when jealous relatives sought to put his money where the former Burnstein girls could not get it, Margaret and Alice just picked up and went home.

Now they are back in the junk shop again, happy in the struggle to make money of their own. Moreover, Margaret has enrolled in a business school and is working earnestly.

"It made me sick," said Margaret discussing her life at the Morrison home. "We didn't live any better than we did at home. Mr. Morrison was awful cranky sometimes. Why, he used the same toothbrush over and over until it was worn out, so as to be saving, yet they told me he spent as much as \$30,000 in one month seeing the cabarets and having a good time."

"And say, you ought to have seen the love letters I got from every old Tom, Dick and Harry, who thought he had a chance to get in on some of the money by making love to me."

"No, the junk shop looks better to me than being an heiress, and as soon as I am competent I am going out and find a job as a stenographer and by my own boss."

Miss Frances Shillaber was a week-end visitor at Durham.

Miss L. V. Keefe has returned from several days' stay in Boston.

Frank J. Berry and wife of Boston passed the week-end with relatives here.

Attorney William S. Pierce of Dover was here this forenoon on legal business.

Miss Marguerite Stoddard of Manchester is spending a few days with friends here.

John Gannon of Cutts street underwent an operation at the Portsmouth Hospital today.

Mrs. Samuel T. Ladd who has been visiting her sister in Boston, returned home on Sunday.

Mrs. Katherine A. Keefe of High street has returned from a business trip to Boston.

Miss Alice Sheridan of Brighton who has been here for the past week, returned home this morning.

Commissioner of Agriculture Andrew L. Feltner of Meredith, passed Sunday with A. O. Benfield and wife.

Mrs. A. P. Haskell and children of Beverly are the guests of Mr. and Mrs. John J. Smith of Manning Place.

Mr. John Aldin who was called here by the death of his sister-in-law returned to New York this morning.

Miss M. A. Wentworth of Kittery who has been in Detroit and Boston for the past three months, has returned home.

Miss Alice Griffin of Shummons college, Boston, returned to her studies this morning after a three days' visit at her home.

Mrs. Bonifant Perkins who has been spending the winter with her daughter, Mrs. A. O. Benfield, has returned to her home in Concord.

Philip Robinson of St. Paul's school, Concord, is in Boston with his mother, for treatment as a result of serious illness from vaccination.

Mrs. A. G. Heflinger of Austin street is at the office of the New Hampshire branch of the Woman's Auxiliary department of the Navy League of the United States.

Mrs. H. P. Montgomery on Saturday afternoon and evening entertained in honor of the engagement of Miss Blanche Boynton, whose marriage to Alvin H. Frost is to take place in April.

## POLICE COURT

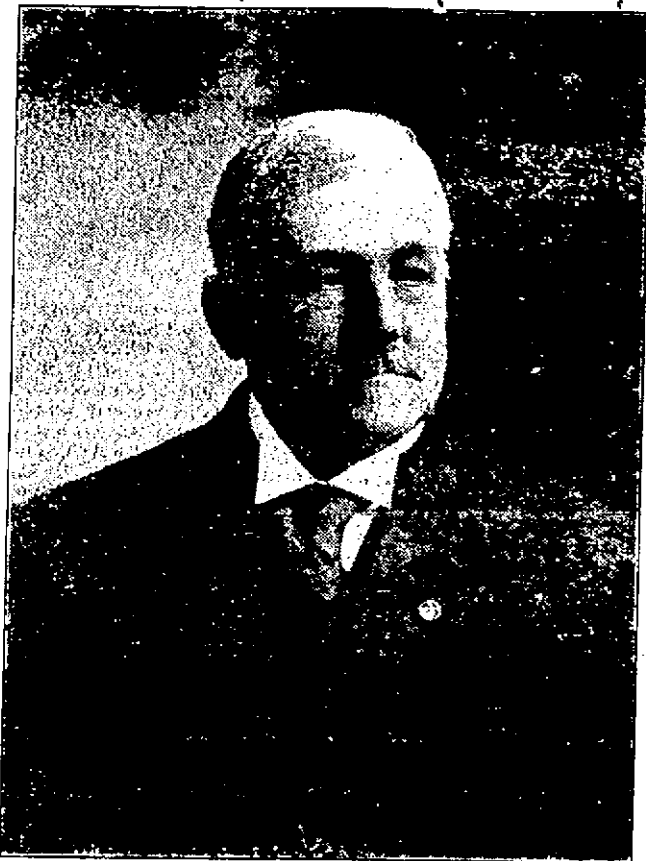

John A. Cassidy, arrested on Saturday night by a watchman at the plant of the Rockingham County Light and Power Company was arraigned in the municipal court today on a charge of breaking and entering. He pleaded not guilty. Cassidy was discovered in the rooms formerly used for storage of stock and when found by the watchman claimed that he went there looking for a man whom he wished to see on some insurance business. The case was continued until three o'clock this afternoon. Cassidy was formerly employed as a tinsmith.

William B. Shannon of Raymond, charged with a statutory offense, who was arraigned on Saturday last, was up for a further hearing this forenoon. The case brought several witnesses from Raymond where the defendant and a very young girl reside. The case took up a greater part of the morning session. The court found Shannon guilty and held him without bail for the May term of superior court.

The fact that Charles Synnonds was a high state soldier boy got him by with a free ticket. Charles was delighted with his freedom but could not tell why and when he was caged. Charles claimed the honor of being a member of the illustrious 17th Massachusetts Regiment which he claims has been ordered to do duty somewhere. He was working in Maine when he got word to report in Boston or somewhere else and put on his fighting armor. He also put on his boogie armor. Coming from the state across the river where much shooting is going on over the "bang-bang" bill, Portsmouth looked good to him. Instead of proceeding directly to the old Bay State, he made a visit to several third parties and forgot all about the fighting 17th until today. He departed at 1:43 for the camp after leaving word for the chief of police to hunt up the week day address of some guest of the Chapel street dormitory who took 50 cents from him to get some cats, and then disappeared.

Accidents will happen, but the best remedy for families keep Dr. Thomas' Peppermint Oil for such emergencies. Two glasses, 25c and 10c at all stores.

# REPUBLICANS CARRY KITTERY BY BIG VOTE

HON. HORACE MITCHELL

## Hon. Horace Mitchell Still "The King"—Citizens' Ticket Could Muster Only 74 Votes.

Kittery rolled up her old-time majority today at the annual town meeting which was one of the liveliest affairs held for years until the votes were counted, and the insurgents ceased to become conspicuous. It was an old-fashioned town meeting, but the voters of the town rallied to the support of Hon. Horace Mitchell, who the opposition has been styling the "King" and elected the ticket that he headed by a handsome majority.

The Citizens' ticket, which consisted so far as could be learned, mainly of Democrats and a few disgruntled Republicans, had made arrangements to carry the town for their ticket without taking into their confidence the voters of the town. They had a brass band and about the town and at the polling places were posters with such inscriptions as "Down with the King," "Free town tonight," etc., as a after the vote was counted the cry of "Long live the King" was frequently heard.

The principal fight came over the election of the officers and after that was disposed of there was but little opposition to the regular articles of the town warrant being adopted.

The following was the vote, which was a direct compliment to Mr. Mitchell, as all of the attacks seemed to have been aimed in a personal manner at him.

There were 351 votes cast, which is very large for a town meeting.

Moderator—Horace Mitchell, Republican, 292; Frank E. Donnell, Citizens' 62.

Town Clerk—Clarence M. Prince, R., 333.

Selectmen, Overseers and Assessors of Taxes—James H. Walker, Charles F. Hussey, Harry H. Cook, R., 262; J. A. Phillips, Arthur M. Pelligrew, C., 62.

Treasurer—George D. Boutter, R., 333.

Superintendent of school committee—Edward S. Fernald and Horace Mitchell, R., 262; Orville Hamers and C. E. Phillips, C., 62.

Collector of taxes—Stephen F. Hobbs, R., 262; Charles Bridges, C., 62.

Auditor—Calvin Dunbar, R., 333.

Constable—James K. Boardman, Samuel Hodgdon, Raymond W. Packard, E. D. O. Mason, Leonidas Sawyer, Charles Hook, R., 262; Hayes Martin, E. D. Manson, P. E. Cooper, U. W. Chapman, C., 62.

Fire wardens—Herman F. Windrich, Arthur L. Hutchins, 262.

The following appropriations were voted: Contingent fund, \$3500; roads and bridges, \$1000; support of the poor, \$1800; common schools, \$1500; high school, \$2700; text books, \$675; road maintenance, \$1600; town debt, \$1500; interest on debt, \$1800; Memorial day, \$100; rental of hydrants, \$1300; fire department, \$500; state roads, \$566; clearing snow from roads, \$1500; street

lights \$2000; special road at Gerrish Island, \$500.

survey work now, on account of the trouble here. We have men in every cable office along the coast, guarding them. We are not allowed to interfere with the Cubans, but we have orders to see that nothing happens to the cables. I suppose that you are still worrying about Germany."

Supply Officer Transferred  
Henry L. Beach, passed assistant paymaster, attached to the supply department of the local yard has been transferred to duty at the First Naval District which covers the territory from Eastport, Me., to Provincetown, Mass.

Novel Way of Recruiting  
Lieut. Walter B. Decker, U. S. N., attached to the naval training station at Newport has announced that he will appear on the vaudeville stage in pursuance of a plan to stimulate enlistment in the naval reserve. Twice a day for the next three days of next week Lieut. Decker will speak on preparedness from the stage of a vaudeville theatre in Providence, during the regular performances, and will urge men to enlist for naval reserve duty. The campaign is part of a general movement thoroughly to canvass the states of Rhode Island and Massachusetts.

Two Hundred Recruits  
More than 200 residents of Gloucester, Mass., many of them experienced seamen enrolled in the naval reserve on Saturday at recruiting meetings conducted by naval men from the Boston navy yard, in the old Armory hall.

The number of men obtained exceeded expectations. The gathering was the first in a series of enrollment meetings that will be conducted in the seaport cities all along the coast of the first naval district, which extends from Eastport, Me. to Chatham, Franklin D. Roosevelt, assistant secretary of the navy, recommended the immediate putting into operation of this plan during a visit to the navy yard at Boston on Saturday.

Forty members of the Gloucester Masters' Association, a large number of them captains or other officers on fishing craft, were among the volunteers. Others were naval veterans of the Spanish-American war. Still others were commanders of local yachts and seamen on fishing boats.

Rear Admiral to Speak  
Rear Admiral Robert E. Peary, U. S. N., retired, the Arctic explorer, will speak in Representatives' hall in the state house at Concord on Thursday evening on Preparedness, under the auspices of the National Civic Federation.

Officers Wanted  
Approximately 150 vacancies in the grade of second lieutenant in the marine corps are soon to be filled. The candidates may be graduates of the Naval Academy, non-commissioned or civil life.

The brigadier general of the marine corps of the marine corps or men from the corps, stationed at 30 will probably be appointed from the two first mentioned classes, leaving 150 vacancies to be filled from civil life. It is proposed to hold an examination of candidates of the latter class on or about July next, the details of which may be obtained from the headquarters of the marine corps in Washington.

The commandant of the marine corps has made it known that he is especially desirous of filling the vacancies with young men of good physique and education and it is especially desired that graduates of recognized colleges and universities shall participate in the examination.

The examination in the state of New Hampshire will be held at Concord.

Put in Drydock Today  
The U. S. S. Tonika, two coal barges and the army steamer, H. Y. Grubbs, were placed in the drydock today.

Calling Helpers  
Two moulders' helpers and four general helpers were called by the labor board today.

Working Sundays  
Nearly seventy men were employed in the shippers' and machinist crews at the yard on Sunday.

Organizing Naval Reserve  
Lieut. D. T. Ghent, U. S. N., has been ordered by the Commandant, W. L. Howard, U. S. N., to go ahead with the organization of the naval reserve. Chief Boatswain W. L. Hill has been ordered as his assistant. Portsmouth should show its interest.

TURKISH ARMY  
WITHDRAWN IN  
GOOD ORDER

Abandoned Heavy Guns in Bagdad But British Took But a Few Prisoners.

(Special to The Herald)

London, March 12.—The main Turkish army that concentrated for the defense of Bagdad withdrew without serious losses before British troops entered the ancient city. A brief dispatch from Gen. Maude indicated today that the British made no large capture of prisoners. The Turks, however, abandoned a number of heavy guns in the retreat from the Dila river. The defeated Ottoman forces are retreating northward along the Tigris river.

# CARRANZA REELECTED IN MEXICO

Largest Vote Ever Cast for De Facto Head; First Real Election Ever Held.

Mexico City, March 11.—Gen. Venustiano Carranza was today elected President of Mexico by what is believed to have been the largest vote ever cast in the republic.

Although the voters had the privilege of writing in or declaring any name they desired, Gen. Carranza received all but a few scattering ballots. The estimated vote cast runs all the way from several hundred thousand to a million.

The presidential election today was provided for in articles adopted by the Constitutional Assembly which met at Queretaro. Many of the old residents declare that this was the first real election ever held in the country.

Reports from various parts of the republic indicate that there was no disturbance or intimidation. Although there was no opposition for the presidency, the congressional contests were bitterly fought. The campaign efforts of the different candidates in the federal district lasted until the early hours of this morning and the streets were littered with dodgers and handbills proclaiming the virtues of the candidates.

Conditions throughout the district were orderly and there was a steady stream of voters during the day. The army was not in evidence, the soldiers casting their votes in their barracks.

Mexico will now have a constitutional president for the first time since 1911, when Francisco Madero received more than 300,000 votes. Gen. Venustiano Huerta called an election in 1911 and declared himself elected, but later nullified the election on the ground that an insufficient number of votes had been cast.

His election to the presidency marks the climax of the efforts of Gen. Carranza, who took the field against Huerta, Feb. 19, 1913, after Huerta had seized the executive power.

The election today was simplified by the fact that there is no vice-president under the constitution. It will be sometime before the returns of the congress contest are definitely known although the candidates on the ticket of the Constitutionalists' liberal party, which first backed Carranza, are running strongly in most of the districts.

OLYMPIA THEATRE NOTES.

We are again going to offer the public on this Monday and Tuesday, one of our supreme bills.

Very seldom it is that you can't find a good show at this theatre, but there are times when we have a program that stands out, far above the average bill.

We sincerely believe that the program we offer today and that the bill we shall present on Friday and Saturday, will constitute one of the best weeks this year.

William Hart has the lead today and tomorrow in "Truthful Thilliver," his latest Triangle Ray Bee. Thomas Ince production.

To quote Louis Reeves Harrison, the man whose business it is to review all motion pictures and pass his opinion on them, for the Moving Picture World, the magazine that goes to the managers of the 21,000 theatres in the United States, it is his best and finest subjects.

In this play the author pictures that advent of a fearless newspaper published in a border settlement of the rudest kind, where all the lowering elements which appeal to man's primitive instincts alone are actively and demoralizingly at work.

To glory Hole comes Truth Thilliver from Texas and the way he cleans up the rotten place is about as sensational as anything of the kind ever shown on the screen.

In the vildest joint of glory Hole he jassoes two men in a surprise attack on

# HEARTY RESPONSE TO APPEAL FOR FUNDS

Concert for the Benefit of Jewish War Sufferers  
Last Evening Was Largely Attended by Appreciative Audience

The citizens of Portsmouth again showed their generosity and their willingness to respond to the call for aid of the distressed by their attendance on Sunday evening of the concert in aid of the Jewish War Sufferers. The Colonial Theatre was filled to capacity with an appreciative audience which was treated to an excellent concert under the auspices of the Portsmouth Hebrew Ladies' Aid Association, the program having been composed entirely of Portsmouth volunteer talent. Following the opening overture by the orchestra under the direction of Chas. W. Hoyt, Mayor Ladd addressed the audience on the purpose of the concert, stating that the citizens had responded nobly to the appeal for charity in the worthy cause; the relief of the non-combatant war sufferers of the Jewish faith. He also said that some day, we also, may be seeking aid, for we are on the verge of war, few of us realizing how close and that few of us have any idea about the sufferings of the peoples of the warring nations. At the conclusion of the address the following program was presented.

Piano Solo - Premier Bolero Brillante  
Mrs. Harriet B. Clough  
Solo, When the Rainbow Shines  
Bright in the Morn  
Annie Lauri  
Mrs. Stewart Humphreys.

Violin Solo  
a. In the Springtime ..... Clieg  
b. At Dawning ..... Calman  
c. The Rosary ..... Nevin  
Miss Helen McIntire, Accompanist,  
Miss Marion McIntire.  
Unitarian Choir. Selections - Parrot  
Me Not ..... Celce  
Over Hill, Over Dale ..... Harran  
Mrs. W. P. Gray, soprano; Mrs. O.  
W. Priest, alto; Mr. Ernest L. Cook,  
tenor; Mr. Chas. W. Gray, bass; Mr.  
Leon Robinson, accompanist.  
Picture - Pathe Travelogue

Solo, In My Heart's Land ..... Damourage  
Miss Evelyn Badger  
Violin Solo, Scene de Ballet ..... Beriot  
Humoresque ..... Dvack  
Master David Cohen, accompanist,  
Mrs. D. W. McNeil.  
Lytic Male Quartet, Selections.  
Solo, A Dream ..... Bartlett  
Miss Katherine O'Leary  
Picture, Selected

Each number of the program was exceptionally well rendered, the audience responding with generous applause showing their hearty appreciation of the efforts of the artists. Each lady performer was presented with a bouquet at the conclusion of her efforts. These were the gift to the committee of Richard E. Hannaford.

The theatre was decorated artistically with plants and flowers donated to the committee by Robert Capstick. Following the concert a informal meeting of the committee was held and resolutions were passed giving a vote of thanks to the several artists who made the concert a success, the management of the theatre, the publishers of the newspapers, Mr. Capstick, Mr. Hannaford, and all others who in any way assisted. There will be a meeting of the committee on Tuesday evening when it will be possible to ascertain the sum gained for the cause and an announcement will be made to the public.

The arrangements were in the hands of the relief committee and the large audience was taken care of in a perfect manner by the ushers. The young ladies who did this work were the Misses Rose Levy, Ella Sharnsky, Lena Stenberg, Dora Cohen Lena Levy, Ethel Sussman Ethel Diller, Fanny Salden, Ethel Cohen and Mollie Shapir.

The committee in charge included Mrs. Samuel Cohen, chairman; Mrs. Harry Sussman, Mrs. K. Levy, Mrs. J. Brown, Mrs. J. Zelman, Mrs. J. Goldstein, Mrs. H. Cohen and Mrs. M. W. Goodman.

Through its excessive news sources in Great Britain, the International News Service today obtained an interesting discussion by Horatio Bottomley, ex-member of Parliament of his belief that the men killed by the ten thousands on the battlefields do not really die, but are still alive. This belief, he bases on scientific considerations, as he is "not a religious man."

Sir Oliver Lodge, Sir William Crookes and other eminent British scientists also hold this belief, which is gaining ground in English intellectual circles.

Mr. Bottomley, formerly a member of the House of Commons, is editor of the weekly "John Bull," and famous also as a financier and an owner of fast horses. His article follows:

Do you remember the story (usually attributed to Lord Beaconsfield) of the witty Lord Chesterfield, who once claimed that his religion was "the religion of all sensible men?" "And what is that?" ventured an inquisitive friend. "No sensible man ever says," came the cynical retort.

And so I can imagine that many of my readers as they glance at the title of this article will be inclined to rank me with those "who rush in where angels fear to tread." However, I am glad to take the risk.

## WAR DEAD STILL LIVE, SAYS FAMOUS BRITON

Perhaps some of the brave ones who have loved and lost are seeking even now to pierce the veil and to share with us the sublime knowledge which has come to them in a flash of glory. For they are not dead. Earth is not a charnel-house. Brute force has no power to destroy the life of man.

Through its excessive news sources in Great Britain, the International News Service today obtained an interesting discussion by Horatio Bottomley, ex-member of Parliament of his belief that the men killed by the ten thousands on the battlefields do not really die, but are still alive. This belief, he bases on scientific considerations, as he is "not a religious man."

Sir Oliver Lodge, Sir William Crookes and other eminent British scientists also hold this belief, which is gaining ground in English intellectual circles.

Mr. Bottomley, formerly a member of the House of Commons, is editor of the weekly "John Bull," and famous also as a financier and an owner of fast horses. His article follows:

Do you remember the story (usually attributed to Lord Beaconsfield) of the witty Lord Chesterfield, who once claimed that his religion was "the religion of all sensible men?" "And what is that?" ventured an inquisitive friend. "No sensible man ever says," came the cynical retort.

And so I can imagine that many of my readers as they glance at the title of this article will be inclined to rank me with those "who rush in where angels fear to tread." However, I am glad to take the risk.

"Truth to tell I am not greatly enamored with the convention that places all matters of religious belief, the vital problems of life and death and the beyond outside the pale of popular discussion and inquiry have been the conditions of progress. Why then, should we be silent upon the grandest theme of all?"

## Plymouth Business School

DAY AND EVENING SESSIONS

human race will be the work not of the priest in his shaded cloister, but of the scientist on the watch tower of knowledge. I believe that in the realm of pure science, in the department of cold reason, apart altogether from the text of the theologians and the dreams of the poets we are on the eve of discoveries that will change our whole outlook upon the problems of time and eternity, that will bestow faith into mortal certainty, and bring hope from the very jaws of despair.

I am more skeptical than many in regard to what is commonly known as "revelation" religion. I have no use for theological dogma. I am afraid that if I had been destined for the church, where some of my friends even now would like to see me, I could not honestly have signed one of the 49 articles or subscribed to a single clause of the Westminster Confession of Faith.

I am not in the common acceptance a "religious" man. But this stupendous war has set me thinking, searching and inquiring, and in all seriousness and sympathy, in all reverence, I say to the weeping widow, to the stricken mother, to all who are bent beneath the war's great load of sorrow:

"Be of good cheer for the dawn of your comfort is at hand."  
The soul demands surer comfort than is to be found in hackneyed Scripture texts, in dogmas unverified, in formulas and stony creeds. Faith must be fed with knowledge. Hope must be founded in fact.

But what kind of knowledge, what form of fact is it that is driving on the world? I have said it will come to us through the channel of reason and science. But it will be science and reason applied to the superphysical. So far our great biologists and chemists, with about two exceptions have never ventured beyond the things of this world, this life. It was an eminent Harley street surgeon who once said: "I have cut open many human bodies in my time, but I have never found any trace of a soul." It was considered a smart, convincing epigram. But you won't find the human soul in the appendix or the bladder. Its only physical manifestation is in the eyes. And is for the scientist of the future to locate it, analyze it, follow it.

The Secret of the Universe  
I have long formed my own view of the form the discovery will take. Putting all legend and allegory on one side, I am convinced that the universe is permeated by an ocean of vital force—a life fluid—which is ever flying into and out of (at birth and death) every living thing—vitalizing, magnetizing it, according to its receptivity. Let me explain: An Ethiopian couple marry; there arrives the time when the little pickaninny is "quicken"—that is to say, when its human magnetism is sufficiently developed to attract to itself the necessary vitalizing fluid to give it life and being.

But it is coarse material, and very little of the force is caught. Still, it gives "life" and it lasts till the magnet gives out, and then flies back, unaltered, to the great sea. It is never lost, and in that sense the soul of the meanest living thing is immortal. It is like taking a thimbleful of water from the ocean, keeping it for a time and then pouring it back. You couldn't say it was lost; but it could never be found again. In this case I have assumed that the good little nigger boy never did any real, conscious harm or good in life; consequently his vital fluid was never vitiated nor refined.

The Effect of Environment  
Now take the case of a child higher up in the human scale. First of all, it will attract to itself, and retain, a larger quantity of life fluid than did the little blackamoor; and then in later years the fluid, or force, will be purified or deteriorated by what the Buddhists call the Karma—the good or evil influence of the life; and when physical death comes it will flow back into what Dickens called "the sea of immortality" which flows all round the world—a phrase which caught my fancy as a very young man, and set me thinking.

Well, so far you will say, we are a long way off the answer to our question. Wait a moment. Up to the present I have taken the cases of two types—both ordinary normal specimens of their class. In the one low down in the scale of evolution I have assumed that the soul—which is the most convenient word—what there was of it returns to its source unaffected in any way by its temporary sojourn in the other. I have regarded it as either refined or degraded by the conscious acts of its possessor. And it will be seen that on this theory the great store of life force is always tending towards a higher or a lower degree of divinity.

In other words until all mankind is exalted to a true nobility of character, we can never in the hackneyed phrase of the churches enter the Kingdom of God. (I am dealing now with the human race only; the animal kingdom is a separate and profoundly interesting study).

Comfort for Those Who Mourn  
But now I come to an aspect of the matter wherein there is comfort and hope for all who have been bereaved by the war. So far I have spoken of the soul returning to its source, after death. In the same, or a better, or worse condition than that in which it entered the human body; and I have not suggested that once liberated it retains any of its individuality. It simply goes back like the thimbleful of water, leaving the sea unaffected or in a minute way purifying or polluting it, according to the elements it has collected during its human habitation.

But since the Divine purpose is ever towards exaltation, there is one thing, and one thing only, which business conditions of life after death—the embodiment of the soul by laws and sacrifices to such a degree that—once liberated from its mortal prison—it is of too high a quality to blend with the common ocean and routine about in search of an affinity—which it finds in those who were dearest to it in life.

## OUCH! LAME BACK. RUB LUMBAGO OR BACKACHE AWAY

Rub pain right out with small trial bottle of old, penetrating "St. Jacob's Oil."

Kidneys cause Backache? Not They have no nerves, therefore cannot cause pain. Listen! Your backache is caused by lumbago, sciatica or a strain, and friction "St. Jacob's Oil." Rub it right on your painful back, and instantly the soreness, stiffness and lameness disappears. Don't stay crippled! Get a small trial bottle of "St. Jacob's Oil" from your druggist and limber up. A moment after it is applied you'll wonder what became of the backache or lumbago pain.

Rub old honest "St. Jacob's Oil" whenever you have sciatica, neuralgia, rheumatism or sprains as it is absolutely harmless and don't burn the skin.

and for whom primarily the love and sacrifice were given, and it is the bridging of the gulf which separates here from the beyond which is the problem of the scientists in the immediate future. And some of them are doing it. Dark rooms and "spiritual seances" won't do it. They are all frauds.

The Gateway to the Life Beyond  
Nature abhors darkness—and so does truth. But I can tell you that one of the greatest scientists in England, a man of European reputation, the principal of a modern university, one with whom accurate thought and critical analysis or the habits of a lifetime—Sir Oliver Lodge—having lost a son upon the battlefield, has devoted his unique powers of investigation to this great mystery, and after weighing every scrap of available evidence, considering every argument—coldly, dispassionately, scientifically—has declared his unalterable belief that what we call death is but the gateway to the life beyond.

There is no mistaking the significance of such testimony, nor dare I question the validity of evidence that has satisfied one of the most brilliant of modern scientific minds. And if the word of the principal of the Birmingham University is not sufficient, it is reinforced by that of Sir William Crookes, a man who has won the Order of Merit by his notable contributions to scientific truth, and who now declares his deep conviction that the life we know is but a single phase of conscious existence, and death a mere episode in the ascent of man.

The Unfolding of a Majestic Purpose  
In me these are facts of stupendous significance, and the realization of a cherished hope. I have long believed that sooner or later the straight and narrow path of scientific investigation would lead us to the heart of the world's central mystery. To some, faith comes easily, intuitively; to others only by painful searching; but I look forward with sanguine hope to a day when knowledge of a future life will be part of the common heritage of man. Already scientists and philosophers are joining hands with poets and mystics to proclaim the glories of the life eternal. The historian sees in the annals of the race the slow unfolding of a majestic purpose.

There was a time when the cleverest men thought this tiny earth the centre of the Universe of God. We smile at the conceit, but perhaps future generations may wonder how men could ever have believed that this little span of earthly life was the sum and extent of human existence. Perhaps some of the brave ones who have loved and lost are seeking even now to pierce the veil, and to share with us the sublime knowledge which has come to them in a flash of glory. For they are not dead. Earth is not a charnel-house. Brute force has no power to destroy the life of man. Some day we shall understand and laugh at our weak misgivings.

"All that we will believe—as our hearts prompt us, as love instructs us, and as growing knowledge suggests—until the clouds break and the heavens are radiant with the glory of the dawn."

The Threshold of a Great Discovery  
If then you are a bereaved parent or sweetheart or sister or brother, be comforted. He who gave his life in this great cause yet lives, and is ever trying to manifest his presence to you. He is tapping at the gate of the land of mystery which, at present, is beyond our ken. Some day you will hear—sooner, perhaps, than you are today prepared to believe. I have done my best to express views which have been forcing themselves upon me for some years past, and especially since the war. I feel certain that I am on the threshold of a great discovery, and I have, in my mind, a fantastic idea which I want to discuss with my old friend, Sir William Crookes. And some day I may tell you all about it.

The man who made the X-rays possible may yet need us to look into or at any rate, to get in touch with the soul. I believe it can be done; I believe it is about to be done; and

there are more remote explanations of the world tragedy which is today decimating the earth in tears and blood than that it may be God's mysterious way of preparing us for a great awakening. After Armageddon—peace. After battle and bloodshed—love. After sacrifice and suffering—exaltation. After death—for the ordinary—oblivion; for the wicked, unrest; for the noble and for the worthy—life, glory and reunion everlasting.

## BAD LUCK LASTING

ONE MAN SATISFIED MISFORTUNES DON'T COME SINGLY.

His Nose, Violently Assaulted by a Bee Early in the Day, Seemed to Reveal a Special Mark for All Kinds of Attacks.

"I just dropped a book on my sore toe," remarked the professor. "The pain caused me to jerk my arm, and I upset a bottle of ink over some valuable papers. This seems to confirm the theory that misfortunes never come singly."

"They never are single," said the low-browed man. "They're always married, and some of them are bigamists. I've noticed that if anything unpleasant happens to me before breakfast, unpleasant things will keep on happening all day."

"The other morning I put my head out of the window to see if there was any weather on deck, and a bee came along and stung me on the nose. I said to Aunt Julia, when I had cooled down enough to talk intelligently, that my nose would be in trouble all day, and she said she had no patience with such a superstition. She reminded me that lightning never strikes twice in the same place, and when I tried to point out that it wasn't lightning, but a six-cylinder tumblebee that struck me, she shook me out of the house."

"I went to milk the cows, and sat down by our old roan. She had collected about five pounds of mud, mixed with cobblestones, on the end of her tail, and I was just getting warned up to my milking when she swung that loaded tail around and soaked me on the nose. I tell you, professor, a man doesn't know what anguish is until something like that takes the sunshine out of his life. If you happen to meet that roan cow one of these days, ask her what I said to her."

"After I had nursed my nose a while I went on with the milking, and after a while I had two buckets filled, and started to the house with them. Old Doolittle has a bunch of nephews visiting him and two of them were practicing pitching in the backyard, which adjoins ours. One of the boys had phenomenal speed, but poor control, and the ball came over and spread my back all over my face."

"I dropped those buckets and the milk soaked into the ground. Trifles like that didn't interest me at the time. I think I was insane for about ten minutes. Aunt Julia says I ran around the backyard in circles, like a whirling dervish, and she never realized until that moment what a command of language I have."

"The next thing I remember I was soaking my face in a bucket of water by the well and Aunt Julia was begging me to apply a flaxseed poultice she had prepared for the occasion. Whenever anything goes wrong at our house Aunt Julia's first impulse is to apply a poultice."

"Well, I haven't the heart to tell you all that happened to my nose that day. Everything that wasn't called down flew up and hit it, and when night came I was carrying it in a sling. And that's the way misfortunes always get in their work."

Saccharine.  
Saccharine is the sweetest substance in the world. It is 500 times sweeter than cane sugar, and is extensively used in jellies and preserves, as well as in the diet of persons who cannot stand sugar.

Prof. H. Remsen of Johns Hopkins University discovered it nearly forty years ago while working on a series of experiments in the laboratory. "Any practical man," Professor Remsen wrote, "would instinctively have condemned the work as being utterly useless, and I may add that some did condemn it. There was no hope, no thought entertained by us that anything practical would come of it." But saccharine was the result and it is now extensively manufactured.

This incident is one of many answers to the plea that all education and all work should be "practical." The whole foundation of modern civilization is laid on scientific work that often seemed the most impractical in the world.

Horses of the Cossacks.  
That the Cossacks should have been the first of the Russians to win through by roads deemed impassable is no matter for surprise to anyone familiar with the Cossack's horse. It is small, with a short, thick head and neck and a sloping back, but what he lacks in size he makes up in sense. To weather and climate he is alike indifferent, and does not miss a farm stable, because that is a luxury he never had. He will thrive where any other horse would starve, and relishes food that a goat would scorn. His rider will tether him on a snow-covered plain and he will get his own food by scraping aside the snow to get at the reindeer moss. And so docile is he that he will form a harnesswork for his master to fire over, or cover incredible distances on the shortest of campaigns.

## 'CASCARETS' FOR HEADACHE, COLDS LIVER, BOWELS

Enjoy life! Don't stay bilious, sick, headachy and constipated.

Get rid of bad breath, sour stomach, coated tongue, indigestion.

Get a ten-cent box now. They're fine! Cascarets loosen your liver, clean your thirty feet of bowels and sweeten your stomach. You eat one or two, like candy, before going to bed and in the morning your head is as clear, tongue is clean, stomach sweet, breath right, and cold gone. Get a box from your druggist and enjoy the nicest, gentlest, liver and bowel cleansing you ever experienced. Cascarets stop sick headache, biliousness, indigestion, bad breath and constipation. Mothers should give a whole Cascaret to cross, bilious, sick, feverish children any time. They are harmless and never grip or sicken.

Portsmouth will have to go some to beat Gloucester in the matter of enrollment in the navy reserve but if necessary, Portsmouth can go some.

## Cold Spring Farm

GREENLAND, N. H.  
BABY'S MILK  
New Hampshire Inspected.

Produced Under Hygienic Conditions from Tuberculin Tested Cows

And Licensed by the New Hampshire State Board of Health.

Nothing but milk from our own herd bottled in our milkroom is ever sold under our Baby's Milk Caps.

We average to produce 55 per cent of our entire output.

Our plant is open for inspection at all times, and visitors are welcome at Cold Spring Farm.

CHAS. H. BRACKETT

## FOUND HIM IN THIS CITY

William Osgood, who the Dover police wished to locate, has been found in this city. The Dover Democrat commenting on his disappearance from that city has the following:

"William Osgood, whom a local paper claims is missing from this city is at work in a foundry at Portsmouth where he has a fine position. Mr. Osgood or his friends do not take very kindly to the free advertising that the weekly sheet gave him."

### SMASHING WINDOW GLASS

Cottages at Rye North Beach Stoned.

A gang of boys amused themselves a week ago Sunday by smashing out the windows from a number of cottages at Rye North Beach. An effort is being made to round the nup. The coast

guard crew have descriptions of the boys. Just what possesses boys to damage property in this way is beyond the comprehension of the average citizen. Court will follow their arrest.

## NOTES FROM THE GIRLS' CLUB

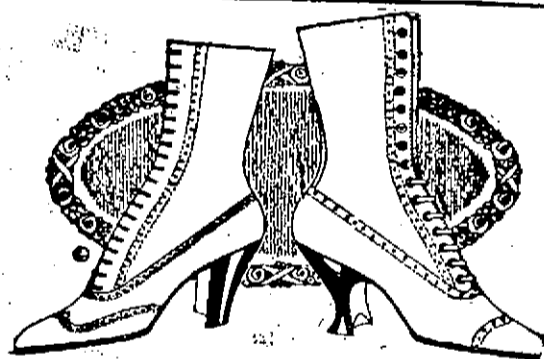

Dancing class as usual tonight at 7.30 at U. V. U. hall. There will be a special business meeting at the close of the class. A large attendance is desired.

All those wishing to go to Dover on Thursday evening to attend the District Conference, must hand in their names at once. The party will leave on the five minutes of seven ferry, and returning, will leave Dover at five minutes past ten.

WANTED—Dressmaking or sewing of any kind. Mrs. George Lane, 276 South street. h m12, 1w

## FRANK W. KNIGHT SHOE TALKS

10 Market Sq. "Shoes of Quality." Portsmouth.

### ADVANCE SPRING STYLES

Individuality is the key-note of the Spring modes. The diversity of styles, the many clever color combinations, give ample choice for individual selection. Our stock embraces all that is new and artistic, as well as practical styles, styles, in both lace and button boots. Built on graceful lines, they give the arch a beautiful curve and fit to perfection. Two-tones and solid color effects, to wear with the Spring Costume.

## FAVORABLE REPORT ON CHARTER BILL

Local Delegation Agrees on  
Election of Councilmen by  
Wards; No Other  
Changes.

A meeting of the Portsmouth delegation to the legislature was held on Saturday evening to consider the amendments to the city charter which has been referred to them.

There were seven present and they voted unanimously to report the bill as favorable with but one change. That is, making nine councilmen as at present but all elected from wards on the same ratio as the representatives. That is, two from ward one, three from ward two, two from ward three, and one each from wards four and five. No other changes were adopted and the main feature of the bill, election every two years, and abolishment of the Board of Public Works were retained.

## THE HERALD HEARS

That temperance people in Maine want a law allowing sheriffs to seize private automobiles if they think the machines have any booze.

That the next move may be the hold up of airplanes and all navigation within the three-mile limit.

That a man in Biddeford, who is said to love the snow, was presented with two boxes of the same and a small snowshovel on his birthday.

That it is not known whether this gift was to show the esteem in which his friends held him or to remind him that his sidewalk was covered with the fallen flakes of frozen vapor.

That a Biddeford writer says it was "snow" joke but simply cold facts.

That Portsmouth will present a candidate to succeed the late Cyrus A. Sulloway in congress.

That the new Chamber of Commerce should have the co-operation of the people of Portsmouth in its work to advance the city.

That the Boston and Maine management has made a change covering the general agent's position in this city.

That in case of a vacancy the job must go up for bids.

That in the past the position has been filled by the division superintendent.

That a leader of an orchestra in Manchester hands out a new one in his challenge of a "battle of music."

That he thinks that his band of artists are the best in the state and he will bet from \$50 to \$500 that he can beat out anything on the dance music.

That he wants five impartial persons to judge the work of his orchestra and have the contest in Manchester.

That if he wants to get real good judgment on the dance music he should insist that the contest be held in Portsmouth.

That if he intends to limit his musicians to a small number he would have hard work taking honors from some of the dance orchestras in Portsmouth.

That H. C. Hopkins, a former Portsmouth merchant, has been re-elected to the board of directors of the Dover Board of Trade.

That the P. A. C. will likely not have a team in the Sunset League this year.

That several of the young Democrats about the city are wondering when that banquet is coming off.

That it is about time that some of

the food speculators were held for overt acts.

That Wisconsin produces 131,000,000 pounds of butter and 200,000,000 pounds of cheese every year.

That this looks like a strong showing.

That the difference between an infant and a wife is about ten years in age and 25 years in looks.

That a thief in a western state certainly had a fastidious taste.

That he got away with a halter, diamond stickpin, and a crowbar in a week's work.

That Charles W. Gray takes over the coal business of the People's Coal Co. on April 1.

That the time of throwing eggs at actors has passed.

That corned pipes have gone up in price, perhaps they are eating corn-cobs somewhere.

## LOCAL DASHES

This war talk is no joke.

Sunday was a real winter day.

Fish of all kinds at Clark's Branch. Tel. 133.

Portsmouth should have a seat in congress.

Chevrolet automobiles. C. E. Woods, Bow St.

The Greenland Bus Line was running as usual today.

Rubber boots are the only safe equipment for foot travel.

If you want to help suffering humanity, shovel off your sidewalk.

Buy your seed potatoes now. They are ready for another jump in price.

Six pounds of sugar, 45c, included in \$1.00 order, at Park Store, opposite Goodwin Park.

The Grange Fair and entertainment will attract large crowds. The ticket sale indicates that.

The one big time of the year for Odd Button Busters, March 15, 1. O. O. 42, hall, Portsmouth.

WANTED—Painters. Must have had 5 years' experience. Apply F. A. Gray & Co., Daniel Street. h m5, 1f

Nearly three inches of snow on Sunday added to the wretched walking once the sun got working today.

Antique furniture restored and upholstered. Hair mattresses renovated. Margeson Bros. Tel. 570.

Have you seen anything of the man who predicted an early spring?

LOBSTERS and fish of all kinds, caught by our own boats, fresh every day. E. Jameson & Sons, Tel. 245.

There are said to be nearly 400 who have joined the naval reserve which is forming among the workmen at the navy yard.

TO LET—Furnished rooms for light housekeeping at 282 Middle street, opposite Sinclair Garage. h m12, 1f

The Portsmouth Teachers' Association has planned a very fine entertainment at the high school hall for Tuesday evening.

The two best shoe factories report they have all the work they can jump at, and both are on the lookout for additional help.

Some janitors think that the sun is sufficient to heat some of the business blocks these days. They ought to be placed in cold storage.

It doesn't seem possible but there are men in this city that use the snow shovel on their sidewalks as much in the winter as they do in summer.

There are a few from this city who are to take the examination for second lieutenant in the reserve corps of the United States army soon to be held.

A dancing assembly for the Country club members will be held on Wednesday evening at Pierce hall. Mrs. Harry E. Philbrook and Mrs. Morgan will be the patronesses.

"An evening in Dixie," cabin stories and plantation songs by Miss Louise Alice Williams of Atlanta, Ga., Monday, March 12, at 8 p. m., Y. M. C. A. hall. Admission 50c.

Every city in the state which has passed its appropriation bill shows a big increase over last year, as the U. S. L. has its effect upon municipalities as well as individuals.

Local contractors say that there are prospects of a considerable building boom in this city this summer, despite the very high cost of all materials which enter into a building.

The coal supply has somewhat improved but there is still a considerable shortage over the usual stock carried by the local dealers, who have for some weeks been buying what is known as speculators' coal, so as to keep the customers supplied.

## FOR A NEW COUNTY BUILDING

A conference of the special committee of the Rockingham County Delegation to the legislature and the county commissioners was held here today, to go over estimates and act on the proposed new building at the County Farm. The bids have been asked for and upon the bids the delegation will base their appropriation for the new building.

FOR SALE—One work horse weighing 1400 lbs., also one colt will be 3 years old May 1; will not refuse a reasonable offer for colt or will exchange for Ford machine. Inquire of Max J. Polmer, Junk Dealer, City. Tel. Con. h m12, 1f

## LAST FEW DAYS WITH SULLOWAY

His Reference to The Call to Him.

Sitting in Congressman Cyrus A. Sulloway's office on March 5, while the inauguration parade was on, I had an hour or two alone with him and he became reminiscent. I said, "Cyrus, I think Joe Cannon looks feeble." Yes, my son," he said, "he is, and do you know lots of us here are, and I think we just want to die in the harness. I expect I will blow away before long." The old man complained that he was unable to write because his hand trembled so. He had been suffering with a gripe cold for two weeks, he said and would be glad to get back to old New Hampshire. There were a dozen large sacks of seed in his office which he was preparing to mail to his constituents.

Speaking of the next congress he said, "Cory's death gives us certain control, I think," but "you" can't tell others may fall on our side."

I don't think Cyrus was on the stand during the ceremonies. I found him in his office about 2 o'clock and I think that his cold was already upon him. To show his loyalty to his home people he insisted upon climbing the marble stairs with them to place them in the galleries.

On Saturday March 3, he sat in the gallery with a Portsmouth party and pointed out all the leaders of congress. I said to the door-keeper one day, "Has Congressman Sulloway entered?" "No sir, and there can't be any mistake young man, one doesn't have to look more than once to tell Sulloway."

He was the friend of everyone at the capitol.

F. W. HARTFORD.

## INSPECTORS MAKE UNEXPECTED CALL

Direct Boston & Maine to  
Haul Off Engines and Repair Them at Once.

Government inspectors made an unexpected call on Saturday at the Boston and Maine roundhouse in Dover where the several locomotives housed there were surveyed, with the result that two locomotives were not allowed to run on train until minor repairs were made. Two others were put out of commission and sent light to the repair shop.

It was necessary to send locomotives from Portsmouth to substitute on the trains which the condemned locomotives had been hauling.
